

An aerial photograph showing a small settlement, likely a First Nations community, situated on a riverbank. The settlement consists of numerous small, colorful houses and buildings, some with blue roofs, clustered together. A dirt road or path winds through the area. In the foreground, a large, calm body of water, possibly a reservoir or a wide river bend, occupies the lower half of the frame. The water has a greenish-grey hue. To the right, the river curves away from the settlement. The background is dominated by a dense, dark green forest that stretches to the horizon under a clear blue sky. A small, low-lying island or peninsula with some bare trees and patches of snow is visible in the water near the settlement.

A photograph of a forest with tall, thin trees and a dense canopy. The trees are mostly evergreens, with some deciduous trees showing autumn foliage. The ground is covered in a layer of brown leaves and green plants. The text "MASHI CHO" is overlaid in the center of the image in a white, bold, sans-serif font.

MASHI CHO
